

# How to upgrade to the DISL from 1.0 to 1.2

**\*SWAP END DATE Jan/31/2019\***

**\*Swap height line is base on 23790 snapshot. Only Available coins can pass swap\***

DISL 1.0 to 1.1+ must coin swap.

Close the wallet. Find your v1.0 wallet.dat in data path:

Windows

C:\Users\{Account Name}\AppData\Roaming\DigitSlateCore

Linux

/home/{Account Name}/.digitslate

or

/root/.digitslate

Copy the **wallet.dat** to other location. Then delete all of data in old data folder.

Download 1.2+ version wallet on official site:

<https://www.digitslate.io/>

Run 1.2+ new wallet. Generate a receive address (Request payment)

Send old v1.0.0 wallet.dat and new v1.2 receive address to

service@digitslate.com

You will receive new coin after few days. The change rate is 20:1.

Note :

- If you have a lots of v1.0 coin is send from other wallet.dat, don't worry. Collect all wallet.dat send to [service@digitslate.com](mailto:service@digitslate.com). You will not lost anythong. Remember do not delete any wallet.dat.
- 1.1 to 1.2 no need swap.
