1. Disclaimer

The purpose of this White Paper is to present DigitSlate (DISL) ecosystem, its technology, business model and the DISL coin to potential coin holders in connection with the proposed Initial Coin Offerings. The information set forth below may not be exhaustive and does not imply any elements of a contractual relationship. Its sole purpose is to provide relevant and reasonable information to potential coin holders in order for them to determine whether to undertake a thorough analysis of the company with the intent of acquiring DISL Coins. Information is contained in the Coin Purchase Terms and the Coin Purchase Agreement. This White Paper does not offer an offer to sell or a solicitation of an offer to buy a security in any jurisdiction in which it is unlawful to make such an offer or solicitation. Certain Statements, estimates and media forward-looking statements or information. Such forward-looking statements or information concern known and unknown risks and uncertainties, which may cause actual events or results to differ materially from the estimates or the results implied or expressed in such forward-looking statements. This English-language White Paper is the primary official source of information about the DISL coin. Into other languages from time to time or may be used in the course of written or verbal communications with existing and prospective community members, partners, etc. In the course of a translation or communication like this, some of the information contained in this paper may be lost, corrupted or misrepresented. The accuracy of such alternative communications cannot be guaranteed. In the event of any conflicts or inconsistencies between such translations and communications and this official English-language White paper, the provisions of the original English-language document shall prevail.

2. About DigitSlate (DISL)

We build the next generation digit asset ecosystem that provide exchange cloud service with global capital. Our ecosystem will provide the cryptocurrency, options trade and apps that easy to use on mobile device. The startup company build on a country where digital assets exchange is legal.

One important part of DISL ecosystem is DISL coin. The DISL coin is the cryptocurrency that provide the chance that crowd can take part in DISL ecosystem help ecosystem growth and share the profit at the same time. The philosophy of management for DISL coin is decentralized. Safety and stability are the top priority on DISL coin's operation and development.

3. About DigitSlate (DISL)

DigitSlate Roadmap Feb. 2019

Our development focus is cloud app around DISL.

4. DISL Ecosystem

DISL ecosystem consists of various parts. This chapter will introduce them briefly. Notice that some parts are still or have not been developed and some plans we have not made public.

4.1. DISL Block Chain

DISL is a unique blockchain living on PoW (Proof-of-Work) and MN (Master Node).

4.2. DISL Core Wallet

DISL core wallet provide the infrastructure to DISL coin. User can send, receive, build MN server with it.

4.3. DISL Gitian

DISL Gitian uses a deterministic build process to allow multiple builders to create identical binaries. This allows multiple parties to sign the resulting binaries, guaranteeing that the binaries and tool chain were not tampered with and that the same source was used. It removes the build and distribution process as a single point of failure.

4.4. DISL Pool

DISL pool provide the GPU miner to mine blocks.

A mining pool is the pooling of resources by miners, who share their processing power over a network, to split the reward equally, according to the amount of work they contributed to the probability of finding a block. A "share" is awarded to members of the mining pool who present a valid partial proof-of-work. Mining in pools began when the difficulty for mining increased to the point where it could take centuries for slower miners to generate a block. The solution to this problem was for miners to pool their resources so they could generate blocks more quickly and therefore receive a portion of the block reward on a consistent basis, rather than randomly once every few years.

4.5. DISL Global Website

The global website provide the most important things likes downloads, news, mining pools.

4.6. DISL Block Explorer

Search the hash of transaction hash and check the total numbers of MN easily.

4.7. DISL Exchange House

The DISL can exchange to other asset on Enmanet (<https://www.enmanet.com/market/BTC-DISL>).
